

Advice for carpooling

Thank you for sharing your cars with others so everyone can come on the adventure!!! We really appreciate it and we cannot do these trips without all our dedicated drivers. Carpooling is by far one of the best transport options as it takes many cars off the road and is far better for the environment. But you can do some things to make it great for both passengers and drivers.

PASSENGERS

Do

1. **Do** contact your driver by WhatsApp and introduce yourself before adding yourself to his or her car.
2. **Do** go to a location that is convenient for the driver rather than ask him or her to come to you. (remember he or she is doing you a favour)
3. **Do** offer to help the driver with the cost of petrol and tolls. Agree this in advance before you step into the car.
4. **Do** pay the driver in advance.

Do Not

1. **Do not** change your car at the last minute for whatever reason. It's not fair on your driver who has prepared everything for you.

DRIVERS

Do

1. **Do** contact your passengers before the event.
2. **Do** let your passengers know if you need to cancel for whatever reason.
3. **Do** ask them to pay in advance before they step into the car.
4. **Do** keep your car clean.

Do Not

1. **Do not** overcharge your passengers - only charge them for what it costs in petrol and tolls.
